# 1332/1432 Heavy-Duty Cable System

Accuride's 1332/1432 Heavy-Duty Cable System is designed with a minimal amount of components to simplify installations, saving time and effort. These slides provide superior stability and performance for larger, heavier pocket doors used in applications such as entertainment cabinetry, armoires and wardrobes, or architectural casework.

## Features and Benefits

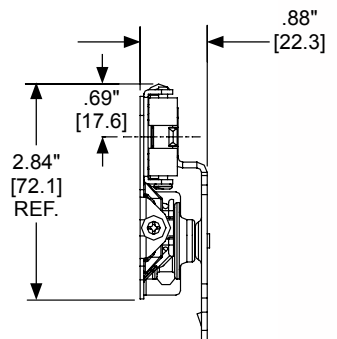

- 75-lb. load rating
- Accommodates doors up to 26" wide x 78" tall
- Fewer components and pre-attached hinge base simplifies installation.
- Slides self-align by positioning against the cabinet top and bottom
- Front cable location simplifies adjustment and servicing
- Hold-out detent secured door in fully extended position
- Silenced in and out for quiet operation
- Model 1332 is supplied with 35 mm hinge; Model 1432, hinges purchased separately

## Availability

- Even lengths 12–32 inches
- Available in standard black electroplate finish or optional clear zinc

## Optional Kits

- 35 mm hinge kit: 4180-0407-XE (black finish)
- 35 mm hinge kit: 4180-0389-XE (zinc finish)
- 40mm hinge kit: 4180-0292-XE (7/16" overlay for doors up to 3/4")
- 40mm hinge kit: 4180-0394-XE (thick doors up to 1 1/4")
- Hinge carrier strip kit: 4180-0408-XE (black finish)
- Hinge carrier strip kit: 4180-0410-XE (zinc finish)

Note: The hinge carrier strip is required for all doors. Additional hinges are required for doors 36"–78" tall. See the product technical sheet for hinge quantities and ordering information.
