## Installation Instructions

1. Mark a line at least 1/4" [6.4 mm] in from the right side of the cabinet opening and parallel to the cabinet side.
2. Locate a point on this line 1.00" [25.4 mm] back from the desired front of the slide.
3. Using #8 pan or round head screws, mount the cabinet member bracket through the first hole at this point.

**NOTE: For maximum strength, ensure that the hold-in detent spring is installed inside the cabinet.**

4. Mount the left hand slide similarly, locating the screw centerline of the cabinet member bracket at least 1/4" [6.4 mm] in from the left side of the opening.
5. Keeping the right and left hand slides parallel, install the remainder of the cabinet member screws.

**NOTE: When using soft materials such as particle board, replace rear cabinet mounting screws with through bolts.**

6. With slides extended, center the shelf and drive the screws up through the moving member brackets into the bottom of the shelf.

**NOTE: If the unit is mounted too close to the floor reverse the procedure above and install the moving member screws first.**

## Slide Ordering Instructions

Complete your slide order for Accuride model 301-2590 by specifying the following:

	<u>20</u>	<u>Pair</u>	<u>C</u>	<u>301-2590</u>	<u>-16</u>	<u>D</u>
Total Required Slides	_____	_____	_____	_____	_____	_____
Slide Finish	_____	_____	_____	_____	_____	_____
Slide Model Number	_____	_____	_____	_____	_____	_____
Slide Length	_____	_____	_____	_____	_____	_____
Optional Polybag Packaging	_____	_____	_____	_____	_____	_____
