

Ascent

CBLIFT-0019

- Carries screens up to 14.5 pounds
- Compact design
- Easy to install

Ascent
CBLIFT-0019

Ascent

CBLIFT-0019

The Ascent is a mechanical lift that conceals and secures screens when not in use, keeping surfaces free of clutter. To access screens, users press lightly on the top of the support column and the lift rises in less than 2 seconds.

The slim and compact design makes the Ascent a multi-purpose solution for a wide range of applications in industrial, commercial, institutional, and residential environments.

Counterbalance weights

Counterbalance weights with extension plates
